## CONFLICT OF LAWS

Volume 2

1986-87

430-11  
441-43

Professor John Swan

Faculty of Law  
University of Toronto

This volume might appear to be longer than you had expected. Its length does not represent as much work as it might, at first sight, suggest. There are very few cases in the volume and most of it is taken up with notes and extracts from articles. It is substantially cut down from its length last year. In part its present length is due to my decision to add two cases, Lewis v. Leigh and Ang v. Trach, neither of which you have to read: they are variations on the Going v. Reid Bros. theme.
